Statistics

Miles	<input type="text" value="4.11"/>
Kilometers	<input type="text" value="6.62"/>
Feet	<input type="text" value="21,716"/>
Waypoints	<input type="text" value="16"/>

Enter a Starting Location:

Getting Started

Step 1. Navigate to the beginning of your route by entering its location in the search bar or by positioning the map to it.

Step 2. Click on the map where your route begins. A marker will appear indicating that this is the starting point.

Step 3. Begin building your route by clicking subsequent locations. The *Statistics* legend will update to reflect the distance traveled in your new route.
